

Judges Questions to Students

Here are some questions that judges might ask to find out more about your project:

- Why/How did you choose this project?
- What is the purpose of the project?
- What library/internet information was useful?

- What variable did you intentionally change?
- What variables were hard to control?
- How many times did you repeat the experiment?

- How did your results relate to your hypothesis?
- If you conducted the experiment again, what would you do differently?
- What additional experiments would you suggest?
- What problems did you run in to while conducting your experiment?

- Who would be interested in the results of your experiment?
- What was the most important thing you learned in the experiment?
- Do your results relate to problems/needs?
