## Your background summary: (Please limit to 200 words)

I am a PhD student in Environmental Engineering at Stanford University. I completed my undergraduate degree at Yale University in Environmental Engineering. There, I studied water and wastewater systems and applications in developing countries. At Stanford, I am working on the development of bioplastics to replace traditional plastics. These plastics biodegrade instead of staying in the environment for billions of years.

Briefly write about your science and/or engineering interests:

As an environmental engineer. I am interested in environmental research. An engineer by training, I enjoy problem solving and exploring new ideas.

Projects from which scientific category (one or more) would you be interested in mentoring? Categories are explained in detail at

http://synopsys.championship.googlepages.com/scientificcategoriesforprojects.

Environmental Sciences, Engineering, Biochemistry/Microbiology

If you are a past Science Fair Judge, list scientific categories which you judged: Environmental Science

If you are a past Science Fair Judge, list fairs by name in which you participated (local school fair, Synopsys Championship, CSSF, ISEF, etc.)

Synopsys Championship 2009 & 2010
