

John Turner

Professional Affiliation: Kappa Alpha Psi Inc, Moose International

Background: My passion for science has been a driving force in my life since my college years. I initially pursued Pharmacy school, but my studies were briefly interrupted due to military service during the Vietnam War. After a four-year hiatus, I returned to school, where I earned a Business Degree with a Minor in Biology and Chemistry. Subsequently, I embarked on a career journey that included roles as a Silicon Salesman and Manager at DOW Corning, as well as service with the Health and Human Services division of the US Government.

Joined the Board: 2003

Board positions: Currently I am Volunteer Chair and in the past I was President.

What attracted you to serve on the board? Frank Crosby, who was on the Board and a long time friend, introduced me to SCVSEFA. Recognizing the potential of my educational background, I believed that my knowledge and expertise could be a valuable asset to the organization.
