

Praveen V. Krishna

Professional Affiliation: UCSC Silicon Valley

Background: I have a Master of Science degree in Electrical & Electronics Engineering. I worked nearly a decade in designing silicon chips and platforms. My current focus is on AI & Deep Learning solutions and I'm an Instructor in the UCSC Silicon Valley AI Program.

Joined the Board: 2019

Board positions: Secretary

What attracted you to serve on the board? The science fair is a wonderful opportunity for me to give back to the local community by sharing my lifelong passion for STEM with the next generation. It is my hope that through the science fair, I get to inspire and motivate many bright young minds to enjoy and pursue education and careers in STEM, which will ultimately benefit not just the local but potentially even the global community.
